

CONTAINIANS HELP DEVELOPERS

The Containians arrive on Earth to help developers solve their most challenging projects.

Created by RiedCreator, 2025

PRESSURE ON EARTH..

In the vastness of space, where stars align...

...developers on Earth are drowning in deadlines...

Client requests piling higher and higher...

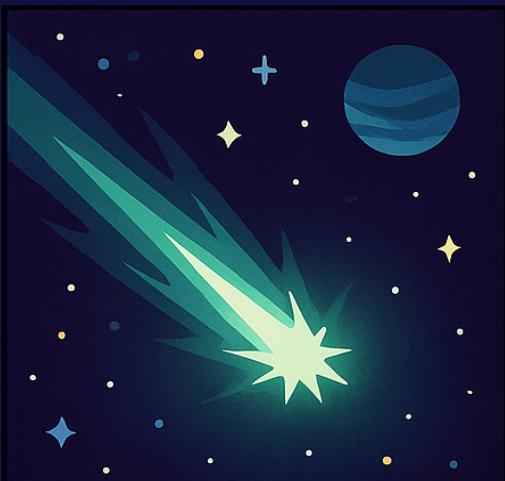

Sales and product owners approve it all—without question.

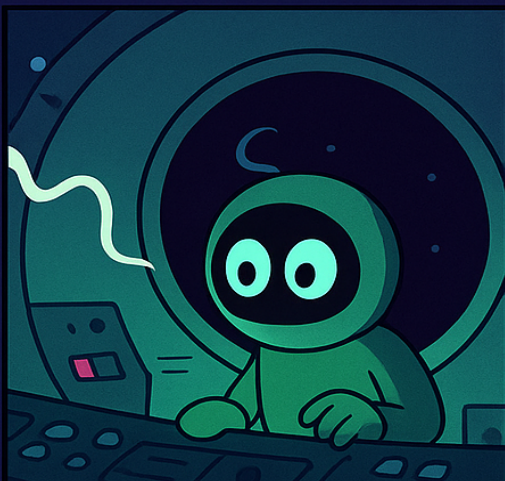

A CRY FOR HELP

THEY HEARD THE CALL

From the depths of
space, a light
begins to shine...

The Containians hear
our call across a void.

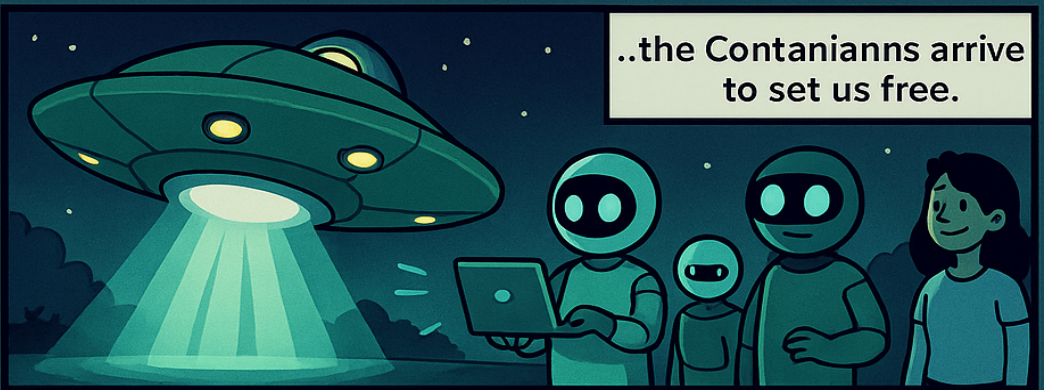

With containers in tow,
they fly at full speed..

...ready to rescue our
code and save the day

TECH TO THE RESCUE

A NEW DAWN

Deadlines met.
Clients rejoice.

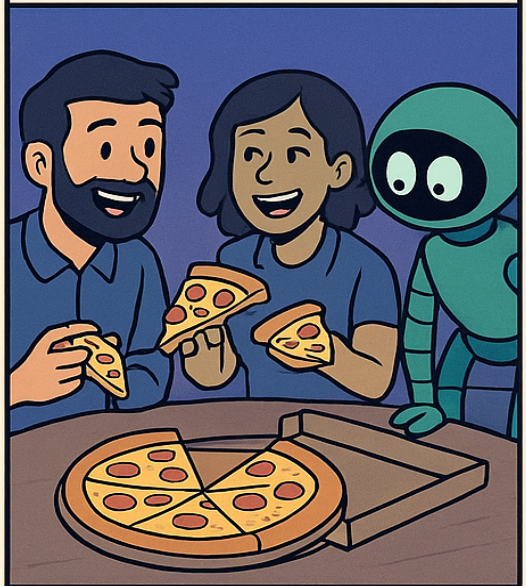

Managers smile —
no fear anymore.

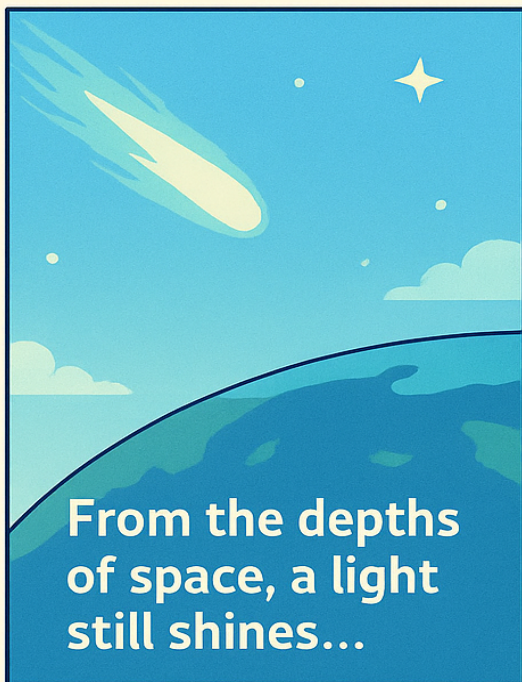

With the Containians,
we conquer the night...

...in a world where
everything is finally right.

A WONDERFUL WORLD

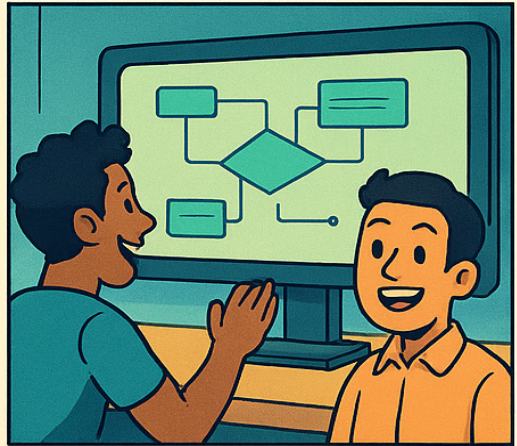

THE DREAM LIVES ON

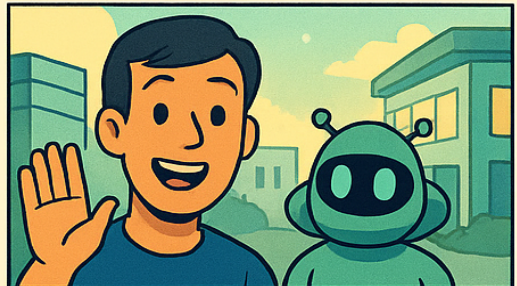

In the vastness of space, wherever stars align...

Thanks to the Containians,
we now live-the dream.

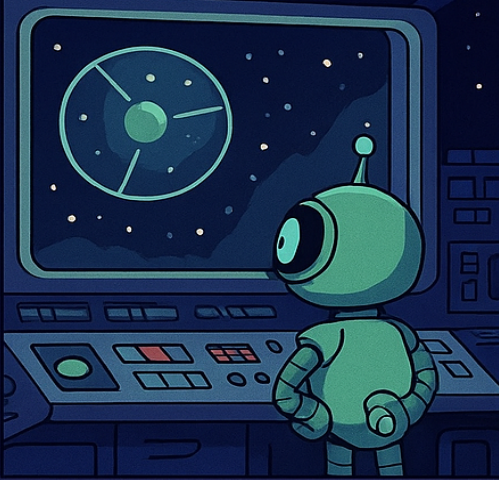

Oh, what a wonderful
world...

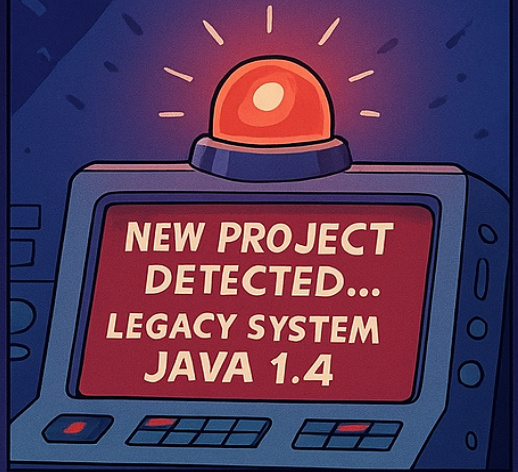

...with Containians always by our side!

MEANWHILE IN SPACE...

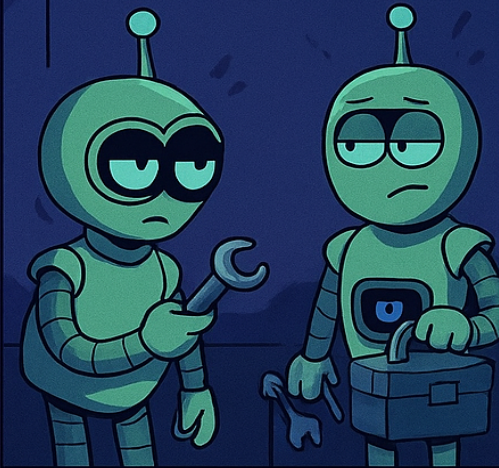

Peace returns to Earth...

...but trouble stirs in another galaxy.

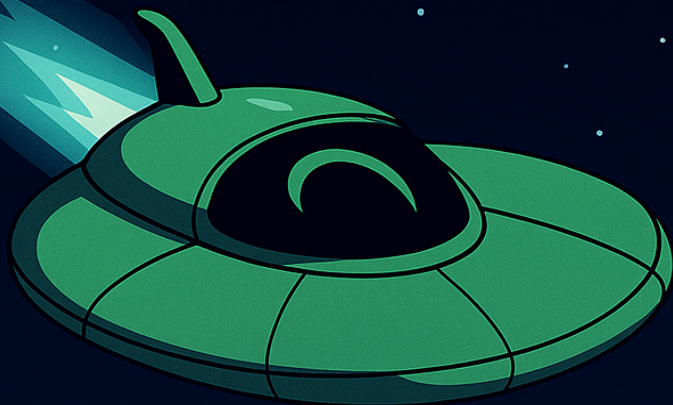

Time to deploy... again.

TO BE CONTINUED...

“In every galaxy, there’s a developer waiting for a miracle. Containers are on their way.”

This comic was brought to you by RiedCreator.
A cosmic tribute to all developers fighting deadlines, and legacy systems.
